

1. SOME FREE SAMPLES

This pack includes some of my favourite samples from BigKick, free for use in your records. I've wanted to put some sounds out for free for months and finally found some time - here they are! I hope they are useful.

2. WANT MORE? GET BIGKICK

Struggling to find the right electronic kick drum sound for your record? You aren't alone! That was my life till 2am too many times.

So BigKick. I designed it to save me ever having to go through that pain again - It makes finding and tuning a kick drum easy. And now I never (really - never) have a problem getting a great sounding kick that fits with the record.

It's now:

- Is now in use by producers and engineers all over the world (including the Freemasons, Access Audio, Jerome Isma-ae, Jamie Anderson, Gareth Emery ...).
- Won a MusicTech choice award.
- Has an average of 4.75 out of 5 stars from 320 user reviews on the Plugin Boutique website.
- Nominated for the Music Tech Gear of the Year award.

In fact you'll probably have already heard it on a record you like - one with a really tasty low-end!

Visit <http://www.pluginboutique.com> and www.credland.net for more information and to try the demo or buy a copy.

Thank you - Jim Credland

Jerome Isma-ae

"...the range of sounds it can produce is superb ... for anyone involved in dance music it is a must ..."

Sound On Sound review, August 2014.

PS. If there are kick drum sounds you need which you can't create with BigKick please send some examples of the sound you are after to contact@credland.net and I'll see whether we can't add some features!
